

**FINANCE of AMERICA**  
- MORTGAGE -

To Whom it May Concern:

I have worked with David Houseman for about 8 years. During this time, our company had both seen explosive growth and had been sold. Navigating all the changes both internal and external with all the industry disruptions was a daily challenge.

I always appreciated David's positive, up-beat, "I will do it" attitude. When I reached out to him with an emergency, he always responded quickly and usually had an intelligent solution I hadn't thought of.

All we have in this industry is our reputation and we can't be good 90% of the time, it must be 100%. Having David on our team was one of the reasons we were able to achieve such explosive growth over the past several years.

I consider David a friend in spite of being a Ram and Laker fan. Please reach out if you have any questions.
